- 3.2.7.4.4.2 Reasons considered by the State to be good cause for member Transfers include:
 - 3.2.7.4.4.2.1 The member requires specialized care for a chronic condition and the member, Contractor and State agree that reassignment to another MCO will result in better or more appropriate care;
 - 3.2.7.4.4.2.2 The member has a documented, long standing relationship with a provider that is not a participating provider with the Contractor but is a participating provider with another MCO;
 - 3.2.7.4.4.2.3 The Contractor does not, because of moral or religious objections, cover some or all the services the member seeks (in accordance with 42 CFR 438.56(d)(2));
 - 3.2.7.4.4.2.4 The member needs related services (for example a cesarean section and a tubal ligation) to be performed at the same time; not all related services are available within the network; and the member's PCP or another provider determines that receiving the services separately

would subject the member to unnecessary risk (see 42 CFR 438.56(d)(2);

3.2.7.4.4.2.5 Poor quality of care, lack of access to Covered Services, or lack of access to providers experienced in dealing with the member's health care needs; or

The Contractor shall make the attempts at least every 30 calendar days of that consecutive 90 calendar day period. The Contractor shall document evidence of the attempts made to resolve the difficulty in

the Transfer request. In cases involving abusive or threatening behavior, only one attempt is required. The Contractor's request to Transfer a member must cite at least one example of the difficulty leading to the Contractor's request to Transfer the member.

3.2.7.5.4 The Contractor must notify the member in writing of its intent to request that the State Transfer the member to another MCO.

3.2.7.5.5 Members have the right to Appeal a Contractor-initiated request for Transfer through the Contractor's Grievance and Appeal System within 10 calendar days of receipt of notice from the Contractor of the Contractor's intent to request that the State Transfer the member. If the member files a Grievance, the Contractor must hear the Grievance within 10 calendar days of receipt of the Grievance. The Grievance must be resolved prior to the Contractor submitting a request to the State to Transfer the member.

3.2.7.5.6 *Limit on Contractor-Initiated Transfers*

3.2.7.5.6.1 Members that have been Transferred between MCOs as a result of a MCO-initiated Transfer request, to such an extent that they have been Enrolled in every contracted MCO, will remain Enrolled in one MCO until the next Annual Open Enrollment Period.

3.2.7.5.7 *Invalid Reasons for Contractor-Initiated Transfers*

3.2.7.5.7.1 The Contractor shall not request, and the State will not approve, Transfer of a member for any of the following reasons:

impairs the Contractor's ability to furnish services to either this particular member or other members);

3.2.7.5.7.1.8 A member's medical diagnosis or health status; and

3.2.7.5.7.1.9 A member's attempt to exercise his/her rights under the Contractor's Grievance and Appeal System or the State's Fair Hearing process, or the demands of a member for referrals to specialists, or for information regarding their health care condition.

3.2.7.6.1 All approved Transfers will become effective no later than the first day of the second month after the Transfer was requested.

3.2.8.3.1 Although the Contractor may not request Disenrollment of a member from DSHP/DSHP Plus, the Contractor shall inform the State promptly when the Contractor knows or has reason to believe that a member may satisfy any of the conditions for Disenrollment from DSHP/DSHP Plus as described in Section 3.2.8.2 of this Contract.

If a service is not currently available, the case manager must substitute a combination of other services in order to meet the member's needs until such time as the desired service becomes available (for example, a combination of home health aide and homemaker services may substitute for attendant care). A temporary alternative placement may be needed if services cannot be provided to safely meet the member's needs.

- 3.7.2.4.17.4 Identify the member's goals.
- 3.7.2.4.17.5 Document the process for member Grievance and Appeals and clearly explain the timeframes and process to the member.
- 3.7.2.4.17.6 Note for each service whether the frequency/quantity of the service has changed since the previous plan of care.
- 3.7.2.4.18 The member or member representative must indicate whether he/she agrees or disagrees with each service authorization and sign the plan of care at initial development, when there are changes in services and at the time of each onsite review (every 90 or 180 calendar days). The case manager must provide a copy of the plan of care to the member or member representative and maintain a copy in the member's electronic case record.
- 3.7.2.4.19 If the member disagrees with the assessment and/or authorization of placement/services (including the amount and/or frequency of a service), the case manager must provide the member with a written Notice of Action (see Section 3.15.2 of this Contract).
- 3.7.2.4.20 The case manager shall complete a Back-Up Plan for any member who will receive in-home HCBS or in-home nursing services (in-home services).
- 3.7.2.4.21 The back-up plan shall be developed to address any gaps in in-home services. A gap in in-home services is defined as the difference between the number of hours of in-home services approved in a member's plan of care for a service and the number of hours of the in-home service that are actually delivered to the member.
- 3.7.2.4.22 The following situations are not considered gaps:

- 3.7.2.4.22.1 The member is not available to receive the service when the provider/employee arrives at the member's home at the scheduled time;
- 3.7.2.4.22.2 The member refuses the provider/employee when he/she arrives at the member's home at the scheduled time, unless the provider/employee's ability to accomplish the assigned duties is significantly impaired by the provider/employee's condition or state (for example, drug and/or alcohol intoxication);
- 3.7.2.4.22.3 The member refuses services;
- 3.7.2.4.22.4 The provider agency or case manager is able to find an alternative provider/employee for the scheduled service at the scheduled time when the regular provider/employee becomes unavailable;
- 3.7.2.4.22.5 The member and regular provider/employee agree in advance to reschedule all or part of a scheduled service; and/or
- 3.7.2.4.22.6 The provider/employee refuses to go or return to an unsafe or threatening environment at the member's residence.
- 3.7.2.4.23 The back-up plan must include information about actions that the member and/or member representative should take to report any gaps and what resources are available to the member, including on-call back-up provider/employees and the member's informal support system, to resolve unforeseeable gaps (e.g., regular provider/employee illness, resignation without notice, transportation failure, etc.) within three hours unless otherwise indicated by the member (see "member service preference level" below). The informal support system must not be considered the primary source of assistance in the event of a gap, unless this is the member's/family's choice. An out-of-home placement in a nursing facility or assisted living facility should be the last resort in addressing gaps.
- 3.7.2.4.24 The back-up plan must include the telephone numbers for the appropriate provider and/or the Contractor's member services information line and nurse triage/nurse advice line that will be responded to promptly 24 hours a day, seven days a week.
- 3.7.2.4.25 In those instances where an unforeseeable gap in in-home services occurs, the Contractor shall ensure that in-home services are provided within three hours of the report of the gap. If the provider agency or case manager is able to contact the member or member representative before the scheduled service to advise him/her that the regular provider/employee will be unavailable, the member or

member representative may choose to receive the service from a back-up substitute provider/employee, at an alternative time from the regular provider/employee or from an alternate provider/employee from the member's informal support system. The member or member representative has the final say in how (informal versus paid) and when care to replace a scheduled provider/employee who is unavailable will be delivered.

3.7.2.4.26 When the provider or the Contractor is notified of a gap in in-home services, the member or member representative must receive a response acknowledging the gap and providing a detailed explanation as to the reason for the gap, and the alternative plan being created to resolve the particular gap and any possible future gaps.

3.7.2.4.27 The written back-up plan for members receiving in-home services must include a "member service preference level" from one of the four categories shown below:

3.7.2.4.27.1 Needs service within three hours;

3.7.2.4.27.2 Needs service within 24 hours;

3.7.2.4.27.3 Needs service within 48 hours; or

3.7.2.4.27.4 Can wait until the next scheduled service date.

3.7.2.4.28 The member's member service preference levels must be developed in cooperation with the member and/or member representative and be based on the most critical in-home service that is authorized for the member. The member service preference level indicates how quickly the member chooses to have a service gap filled if the scheduled provider/employee of that critical service is not available. The member or member representative must be given the final say about how (informal versus paid) and when care to replace a scheduled provider/employee who is unavailable will be delivered.

3.7.2.4.29 The case manager must assist the member or member representative in determining the member's member service preference level by discussing the member's needs associated with his/her ADLs and IADLs, abilities and cognitive, behavioral and medical status. The case manager should ensure the member or member representative has considered all appropriate factors in deciding the member's member service preference level. The member and/or member representative is not required to take into account the presence of an informal support system when determining the member service preference level.

- 3.7.2.4.30 The case manager must document the member service preference level chosen in the member's back-up plan and electronic case record. The documentation in the member's electronic case record must clearly indicate the member's or member representative's involvement in contingency/back-up planning.
- 3.7.2.4.31 A member or member representative can change the member service preference level from a previously determined member service preference level at the time of the service gap, depending on the circumstances at the time. The provider agency or Contractor must discuss the current circumstances with the member or member representative at the time the gap is reported to determine if there is a change in the member service preference level. The plan to resolve the service gap must address the member's choice of member service preference level and how the service gap will be addressed at the time the gap is reported.
- 3.7.2.4.32 The back-up plan must be discussed with the member or member representative at least quarterly. A copy of the back-up plan must be given to the member when developed and at the time of each review visit. The member or member representative may change the member service preference level and his/her choices for how service gaps will be addressed at any time.
- 3.7.2.4.33 The case manager shall encourage, and assist as needed, members receiving HCBS to have a disaster/emergency plan for their household that considers the special needs of the member. Informational materials are available at the Federal Emergency Management Agency's website at www.fema.gov or www.ready.gov. The case manager shall also encourage HCBS members to register with the State's Emergency Preparedness Voluntary Registry. For more information go to <http://www.de911assist.delaware.gov/>.
- 3.7.2.4.34 The case manager shall regularly assess members who reside in out-of-home residential placements to determine if they are in the most integrated setting possible to meet their needs.
- 3.7.2.4.35 If a member will be admitted to a nursing facility, the case manager must ensure and document that a PAE and PASRR have been completed by the State prior to admission.
- 3.7.2.4.36 If a member does not intend to pursue receiving HCBS or institutional services, the Contractor must encourage the member to withdraw from the DSHP Plus program voluntarily. In addition, the Contractor must immediately notify the State.

- 3.7.2.4.37 A member's plan of care must include the date range and units for each service authorized.
- 3.7.2.4.38 Plans of care for members residing in a nursing facility must include the following types of services, as appropriate based on the member's needs:
 - 3.7.2.4.38.1 Nursing facility services – The plan of care must indicate the LOC based on the PAE and any Specialized Services specified by the State as part of the Level II PASRR process;
 - 3.7.2.4.38.2 Hospital admissions (acute and psychiatric);
 - 3.7.2.4.38.3 Temporary absences for hospitalization (Bed Hold Days), which shall be up to seven days within any 30-day period;
 - 3.7.2.4.38.4 Temporary absences for reasons other than hospitalization (Therapeutic Leave Days), which shall be up to 18 calendar days per year;
 - 3.7.2.4.38.5 DME not included in the institutional facility per diem;

- 3.7.2.4.40 The Contractor shall refer to Section 3.4.2 of this Contract for descriptions of the amount, duration and scope of services included

in the DSHP Plus LTSS benefit package, including information about restrictions on the combination of services.

3.7.2.5 Plan of Care Monitoring and Revision

- 3.7.2.5.1 The case manager shall provide ongoing monitoring of the services and placement of each member in order to assess the continued appropriateness of the services and placement in meeting the member's needs, monitor appropriate implementation of the member's plan of care, including the type, scope, amount and frequency of services; and monitor the quality of the care delivered by the member's providers.
- 3.7.2.5.2 The case manager shall review member placement and services onsite, with the member and/or member representative present, within the following timeframes:
 - 3.7.2.5.2.1 At least every 180 calendar days for a member in an institutional setting (this includes members receiving hospice services and those in a nursing facility).
 - 3.7.2.5.2.2 At least every 90 calendar days for a member receiving HCBS, including members residing in assisted living facilities.
 - 3.7.2.5.2.3 At least every 90 calendar days for a community-based DSHP Plus LTSS member with HIV/AIDS receiving acute care services only. Monitoring of acute care services for these members may be conducted onsite, via telephone or by certified letter. However, an onsite visit with the member must be completed at least once a year.
 - 3.7.2.5.2.4 For members in the MFP program, in accordance with the monitoring requirements in the State's MFP protocol (incorporated by reference).
- 3.7.2.5.3 The Contractor may develop standards for more frequent onsite reviews of specific types of members/placements at its discretion but may not determine members to need less frequent visits than specified above.
- 3.7.2.5.4 The case manager must attend all nursing facility care conferences as an opportunity to discuss the member's needs and services jointly with the member, providers and the member's family.
- 3.7.2.5.5 During the onsite review for a member in an institutional setting, the case manager shall consult with facility staff to assess changes in member needs.

- 3.7.2.5.6 The case manager must conduct onsite reviews at the member's residence. A review conducted at a site other than the member's place of residence must be at the request of the member or member representative, not just for the convenience of the case manager. If an alternate site is used, the rationale must be documented in the member's electronic case record. The case manager should make every effort to see members in their homes in order for the case manager to assess the living environment and evaluate potential barriers to quality care. Reviews at an alternative site should be the exception.
- 3.7.2.5.7 The case manager must follow up with members between onsite reviews to monitor the status of the delivery of approved services and any changes to the member's needs or circumstances. This shall include, at a minimum, monthly contacts by telephone.
- 3.7.2.5.8 The case manager shall conduct more frequent case monitoring when the case manager is notified of an urgent/emergent need or a change in the member's needs or circumstances that might require revisions to the existing plan of care.
- 3.7.2.5.9 The case manager shall conduct an emergency visit/onsite review when the situation is urgent and cannot be handled over the telephone or when the case manager has reason to believe that the member's health or safety is endangered.
- 3.7.2.5.10 If a member's Pathways employment navigator contacts the Contractor/the case manager about a member, the case manager shall coordinate with the employment navigator to exchange information about the member's needs (e.g., from the member's LOC and/or needs assessment) and services and coordinate coverage of services provide by Pathways that are included in the DSHP Plus LTSS benefit package (e.g., personal care/attendant care services). The case manager shall include information on the member's Pathways services in the member's plan of care.
- 3.7.2.5.11 If the Contractor or case manager is notified that a member is participating in PROMISE, the case manager must contact the DSAMH care manager within five business days of notification to exchange information about the member's needs and services and to coordinate and collaborate on the development and implementation of a comprehensive plan of care, including the provision of Covered Services that are also provided through PROMISE. As appropriate, the case manger shall schedule a call or onsite visit with the member and/or member representative and the DSMAH care manager within 15 business days of notification to update the member's plan of care.

- 3.7.2.5.12 The case manager must conduct an onsite review within 10 business days following a member's change of placement type (for example, from HCBS to an institutional setting, own home to assisted living facility or institutional setting to HCBS) or a change in a member's needs or circumstances that might require revisions to the member's plan of care or from the date the case manager is made aware of such a change. The case manager shall conduct this review to ensure that appropriate services are in place and that the member agrees with the plan of care as authorized.
- 3.7.2.5.13 The Contractor shall ensure that a member is not discharged to his/her own home until adequate services can be arranged to begin at the time of the transition to home.
- 3.7.2.5.14 The case manager shall conduct at least three attempts over a period of 30 consecutive calendar days to contact the member to schedule an onsite review in accordance with Section 3.7.2.2.5 of this Contract, above. If the Contractor is unable to contact the member within 30 calendar days, the Contractor shall complete the Member Change Report and submit it to DMMA's DSHP Plus LTSS eligibility unit for potential loss of contact. Disenrollment will not occur if the State is able to make contact with the member or member representative and confirm that the member does not wish to withdraw from DSHP Plus.
- 3.7.2.5.15 During the onsite reviews the case manager shall meet with the member and/or member representative in order to:
 - 3.7.2.5.15.1 Discuss the type, scope, amount, frequency and providers of authorized services.
 - 3.7.2.5.15.2 Assess the member's current functional, medical, behavioral and social strengths and needs.
 - 3.7.2.5.15.3 Re-evaluate the LOC of HCBS members at least annually using a LOC re-evaluation form prior approved by the State.
 - 3.7.2.5.15.4 Determine the appropriateness of the member's current placement/services in meeting his/her needs, including the discharge potential of members residing in a facility.
 - 3.7.2.5.15.5 Review non-Covered Services that the member is receiving, such as additional services, Medicaid benefits being provided by the State (see Section 3.4.10 of this Contract) and non-Covered Services being provided by the State or in the community.

- 3.7.2.5.15.7 Assess the member's living environment and evaluate potential barriers to quality care and any modifications necessary to ensure the member's health and safety.
- 3.7.2.5.15.8 Revise/update the member's plan of care (see Section 3.7.2.5 of this Contract).

- 3.7.2.5.15.10 Identify any barriers to the achievement of the member's goals.
- 3.7.2.5.15.11 Evaluate the member's goals for appropriateness.
- 3.7.2.5.15.12 Adjust or develop new goals or interventions as needed.
- 3.7.2.5.15.13 For members receiving in-home HCBS or in-home nursing services, review the Contractor's process for the member or member representative to immediately report any gaps in service delivery to the Contractor and/or provider and the member's back-up plan.
- 3.7.2.5.15.14 Review, at least annually, the Contractor's member handbook to ensure members and member representatives are familiar with the contents, especially as related to Covered Services and their rights/responsibilities.
- 3.7.2.5.15.15 Identify any issues, including service issues and/or unmet needs and develop an action plan to address them promptly. The case manager must quickly assess/identify a problem or situation as urgent or as a potential emergency and take appropriate action.
- 3.7.2.5.16 The member representative must be involved in the onsite review if the member is unable to participate due to a cognitive impairment, if the member is a minor child and/or if the member has a legal guardian.
- 3.7.2.5.17 If the member is not capable of making his/her own decisions, but does not have a representative, the case manager must refer the case to the Public Guardian or other available resource. If a representative is not available, the reason must be documented in the member's electronic case record.

- 3.7.2.5.18 The case manager must complete a written plan of care at the time of the initial visit and must update the plan of care when there are any changes in needs or services and at the time of each onsite review (every 90 or 180 calendar days). The member or member representative must indicate whether he/she agrees or disagrees with each service authorization and must sign the plan of care each time it is updated. The member must be given a copy of each signed plan of care.
- 3.7.2.5.19 The Contractor shall permit members to request a change to their plan of care if the member's circumstances necessitate a change.
- 3.7.2.5.20 The State will re-evaluate the LOC for members residing in a nursing facility. The case manager shall assess HCBS members at least annually to re-evaluate their LOC. If the case manager determines that a member no longer meets LOC, the Contractor shall provide the LOC re-determination documentation to the State for review.
- 3.7.2.5.21 Prior to an HCBS member being admitted to a nursing facility, the case manager shall complete the PAE and submit it to the State to determine whether the member meets the nursing facility LOC and may be admitted.
- 3.7.2.5.22 The case manager shall contact the member's PCP at least quarterly to discuss the PCP's assessment of the member's needs and status. However, if an issue is identified by the member or member representative or case manager, the case manager shall contact the member's PCP within 24 hours or as expediently as needed to address the issue.
- 3.7.2.5.23 The case manager shall contact the member's HCBS providers at least annually to discuss their assessment of the member's needs and status. However, if an issue is identified by the member or member representative or case manager, the case manager shall contact the member's HCBS providers as soon as possible to address the issue.
- 3.7.2.5.24 If a member is receiving skilled nursing care from a home health agency, the case manager shall contact the home health provider every 30 calendar days.
- 3.7.2.5.25 If a member is receiving behavioral health services, and not participating in the PROMISE program, the case manager shall contact the behavioral health provider at least quarterly to discuss the provider's assessment of the member's needs and status. The case manager must ensure there is communication between the PCP

and behavioral health providers involved in the member's care at least annually and that care is coordinated with other agencies and involved parties.

- 3.7.2.5.26 For PROMISE participants, the Contractor's DSHP Plus LTSS case manager shall contact the member's DSAMH care manager at least quarterly to collaborate and to coordinate services necessary to meet the member's needs. However, if an issue is identified by the member, member representative, or DSHP Plus LTSS case manager, the case manager shall contact the member's DSAMH care manager within 24 hours or as expediently as needed to address the issue.
- 3.7.2.5.27 The case manager is responsible for coordinating physician's orders for those medical services requiring a physician's order.
- 3.7.2.5.28 If the case manager and PCP or attending physician do not agree regarding the need for a change in level of services, placement or physician's orders for medical services, the case manager shall refer the case to the Contractor's LTSS CMO for review. The LTSS CMO is responsible for reviewing the case, discussing it with the PCP and/or attending physician if necessary, and making a determination in order to resolve the issue.
- 3.7.2.5.29 If the case manager determines that changes in placement or services are indicated, the case manager must discuss the indicated changes with the member and/or member representative before any changes are initiated. This is especially critical if the changes result in a reduction or termination of services.
- 3.7.2.5.30 The Contractor shall notify a member or member representative in writing of any denial, reduction, termination or suspension of services, when the member or member representative has indicated, on the plan of care, that he/she disagrees with the type, amount, or frequency of services to be authorized (see Section 3.15 of this Contract).
- 3.7.2.5.31 The case manager must be aware of the following regarding members eligible to receive hospice services:
 - 3.7.2.5.31.1 Members may elect to receive hospice services. These services may be covered by private insurance or Medicare, if the member has Part A, or by the Contractor if there is no other payor source available.
 - 3.7.2.5.31.2 The Medicare hospice benefit is divided into two 90-calendar day election periods. Thereafter, the member may continue to receive hospice care in 60-calendar day increments. A

physician must recertify hospice eligibility at the beginning of each election period.

3.7.2.5.31.3 The member has the right to revoke the election of Medicare hospice care at any time during the election period and resume DSHP Plus coverage; however, any remaining days of coverage are then forfeited for that election period.

3.7.2.5.31.4 A member may at any time elect to receive Medicare hospice coverage for any other hospice election periods for which he/she is eligible.

3.7.2.5.31.5 The hospice agency is responsible for providing Covered Services to meet the needs of the member related to the member's hospice-qualifying condition. The Contractor shall not provide Covered Services to members receiving Medicare hospice services that are duplicative of Medicare hospice benefits. Attendant care services (including Self-Directed Attendant Care Services) is not considered a duplicative service. If the hospice agency is unable or unwilling to provide or cover Medically Necessary services related to the hospice diagnosis, the Contractor must provide the services. The Contractor may report such cases to the State's licensing agency.

3.7.2.5.31.6 The case manager must communicate with the hospice case manager on transition and end of life care needs as needed to ensure coordination and continuity of services.

3.8.11.1.5 The Contractor shall allow for the continuation of existing relationships with non-participating providers, when considered to be in the best interest of the member with SHCN.

3.8.11.1.6 The Contractor shall assure that members with serious, chronic and rare disorders receive appropriate diagnostic work ups on a timely basis using nationally recognized, evidence-based tools.

3.8.11.1.7 The Contractor must have a written protocol describing its coordination system for members with SHCN who are not DSHP Plus LTSS members, which should include the Contractor's approach to care coordination, utilization review and assuring continuity of care, such as verifying Medical Necessity, service planning, channeling to appropriate levels of treatment and development of treatment alternatives when effective, less intensive services are unavailable (see definition of Medical Necessity in Section 3.4.5 of this Contract).

3.8.11.2.1.3 In all cases, the Contractor must ensure the child is screened within 30 calendar days of notification the child was removed from the home. Whenever possible this screening should be completed within a five-calendar day timeframe to reduce stress on the child.

The Contractor shall develop a coordinated plan with DPH regarding population-based and community prevention strategies.

3.8.12.2 Public Health Laboratory Services

3.8.12.2.1 Disease surveillance and disease control are core functions of the DPH and are supported by the Delaware Public Health Laboratory's testing for infectious and communicable diseases.

3.8.12.4 Child Development Watch (CDW) and Part C

- 3.8.12.4.1 CDW is a specialty service operated by the Delaware DPH based on Public Law 94-142, which was amended and reauthorized as Public Law 108-446, the Individuals with Disabilities Education

Improvement Act of 2004 (IDEA). CDW carries out the mandate of Part C of IDEA and Delaware Code Title 16, Chapter 2, Section 214 for children birth to three years of age. It includes the functions of early identification, central intake, developmental evaluation and diagnostic assessments, multidisciplinary team case conferences, and development of the Individualized Family Services Plan (IFSP) and services coordination carried out by a multidisciplinary team. The goal of the Part C program is to “enhance the State’s capacity to provide quality early intervention services and expand and improve existing early intervention services being provided to infants and toddlers with disabilities and their families.”

3.8.12.4.2 The Contractor is responsible for:

- 3.8.12.4.2.1 Encouraging PCPs to refer to and participate in CDW multidisciplinary assessment teams and coordinating assessments and services with the CDW program. The multidisciplinary assessment is conducted by CDW and is paid for directly by the State.
- 3.8.12.4.2.2 Accepting the IFSP as documentation of Medical Necessity for assessment and treatment services recommended in the plan.
- 3.8.12.4.2.3 Paying for necessary assessments and Medically Necessary early intervention treatment services identified during the CDW assessment process and approved by the child’s PCP and included on a child’s IFSP/IEP.
- 3.8.12.4.2.4 Accepting a single denial from a commercial insurer on a one-time calendar-year basis for a child for any service recommended in an IFSP (i.e., a single claim denial will be accepted for the entire year for a child, rather than having to be obtained each time a claim for the service is submitted by that provider for reimbursement) as evidence that other legally liable Third Party resources were exhausted.
- 3.8.12.4.2.5 Ensuring continuity of services as specified on a child’s IFSP. In instances when a family transitions from one commercial insurer to another, the Contractor must continue reimbursement for services so that there is no break in the receipt of services.
- 3.8.12.4.2.6 In cases where a member who is Dually Eligible for Part C and Medicaid or DHCP Transfers from another MCO to the Contractor, the Contractor shall honor any prescriptions and prior authorizations for services required in the IFSP issued by the Transferring MCO for a 30 calendar day period while the

Contractor works to issue such prescriptions and authorizations within its own provider network.

3.8.12.4.3 With parent permission, the CDW can provide the Contractor with a copy of the IFSP.

3.8.12.4.4 The Contractor shall ensure that services specified in the IFSP are provided in the child's natural environment, in accordance with IDEA (i.e., home or community setting, unless there is justification that early intervention cannot be achieved satisfactorily for the infant or child in the natural environment).

3.8.12.5 Coordination with School-Based Services Provided by the State

3.8.12.5.1 The State contracts with Delaware school districts to provide screening and health-related services that the schools must provide to children with special needs under IDEA. Under Part B of IDEA, school districts must prepare an IEP for each child, which specifies all special education and "related services" needed by the child. Per Federal policy the State can pay for some of the health "related services" if they are covered by Medicaid. Examples of health-related services commonly provided under an individualized education program (IEP) and reimbursed by Delaware Medicaid are physical therapy, speech pathology services, occupational therapy, psychological services and medical screening and assessment services. The least restrictive environment requirement has been interpreted to mean that therapy services should be delivered on school premises.

3.8.12.5.2 The State will continue to pay for these health-related services on an FFS basis. The Contractor is not responsible for paying for these services, but the Contractor must work with school districts and their providers to create and implement procedures for linking and coordinating services for children who attend school and receive health-related services under an IEP. The Contractor must also coordinate with school districts and their providers to prevent the provision of duplicate services.

3.9 PROVIDER NETWORK

3.9.1 General

3.9.1.1 The Contractor must maintain and monitor a network of appropriate providers that is supported by written participation agreements and is sufficient to provide adequate access to all Covered Services in accordance with the access standards in this Contract (see Section 3.9.17 of this Contract). The Contractor's network shall include both in-State and out-of-State providers as necessary to meet these requirements.

3.9.1.2 The Contractor shall:

3.9.1.2.1 Pursuant to Section 1932(b)(7) of the Social Security Act and 42 CFR 438.214(c), not discriminate against providers that serve high-risk populations or specialize in conditions that require costly treatment.

3.9.1.2.2 Pursuant to 42 CFR 438.12:

3.9.1.2.2.1 Not discriminate with respect to participation, reimbursement or indemnification of any provider acting within the scope of that provider's license or certification under applicable State law solely on the basis of the provider's license or certification;

3.9.1.2.2.2 Upon declining to include individual or groups of providers in its network, give the affected providers written notice of the reason for its decision;

3.9.1.2.2.3 Be allowed to negotiate different reimbursement amounts for different specialties or for different practitioners in the same specialty; and

3.9.1.2.2.4 Be allowed to establish measures that are designed to maintain quality of services and control of costs and are consistent with its responsibility to members.

3.9.1.2.3 Not make payment to any provider who has been barred from participation based on existing Medicare, Medicaid or CHIP sanctions, except for Emergency Services.

3.9.1.2.4 In accordance with 42 CFR 438.206, consider, in establishing and maintaining the network of appropriate providers, its:

3.9.1.2.4.1 Anticipated membership;

3.9.1.2.4.2 Expected utilization of services, taking into consideration the characteristics and health care needs of specific populations represented in the Contractor's membership;

3.9.1.2.4.3 Numbers and types (in terms of training, experience, and specialization) of providers required to furnish Health Care Services;

3.9.1.2.4.4 Numbers of participating providers who are not accepting new patients; and

3.9.1.2.4.5 Geographic location of participating providers and members, considering distance, travel time, the means of transportation

ordinarily used by members, and whether the location provides physical access for members with disabilities.

- 3.9.1.2.5 Maintain written policies and procedures on provider recruitment, retention, and termination. The recruitment policies and procedures shall describe how the Contractor responds to a change in the network that affects access and its ability to deliver services in a timely manner.
- 3.9.1.2.6 Ensure that participating providers offer hours of operation that are no less than the hours of operation offered to commercial enrollees.
- 3.9.1.2.7 Establish mechanisms such as notices or training materials to ensure that participating providers comply with the timely access requirements, monitor such compliance regularly, and take corrective action if there is a deficiency.
- 3.9.1.2.8 If the Contractor is unable to provide Medically Necessary Covered Services to a particular member within the access standards specified in this Contract (see Section 3.9.17 of the Contract) using a qualified participating provider, the Contractor shall provide the services using a qualified non-participating provider and shall do so for as long as the Contractor is unable to provide the services through a qualified participating provider within the applicable access standards.
- 3.9.1.2.9 Require non-participating providers to coordinate with the Contractor with respect to payment and ensure that cost to the member is no greater than it would be if the services were furnished by a participating provider.
- 3.9.1.2.10 Ensure and demonstrate that its providers are credentialed and recertified as required under 42 CFR 438.206(b)(6) and 42 CFR 438.214 and in accordance with Section 3.9.7 of this Contract.
- 3.9.1.2.11 Ensure that each provider providing services to members under this Contract has an NPI (or OEID or State assigned ID for atypical providers). This must be the same NPI/OEID/State-assigned ID number(s) used for enrollment in the Delaware Medicaid program if the provider is a DMAP-enrolled provider.
- 3.9.1.2.12 Collect and provide to the State participating provider information for addition to or matching with the DMAP provider file.
- 3.9.1.2.13 Ensure that all provider facilities are accessible as required by the Americans with Disabilities Act.

- 3.9.1.2.14 Monitor all provider activities to ensure compliance with State and Federal law and policy and the Contractor's policies and take corrective action if there is a failure to comply.
- 3.9.1.2.15 Provide monthly performance reports to providers, built around a common template for all of Medicaid, that provide detail on provider performance on the common set of quality measures specified by the State and on certain utilization and cost measures specified by the State.
- 3.9.1.2.16 Ensure that PCPs successfully identify and refer members to specialty providers as Medically Necessary.
- 3.9.1.2.17 For members with special health care needs determined through an assessment by appropriate Health Care Professionals to need a course of treatment or regular care monitoring, have a mechanism in place to allow members to directly access a specialist (for example, through a standing referral or an approved number of visits) as appropriate for the member's condition and identified needs.
- 3.9.1.2.18 Provide to members and providers clear instructions on how to access Health Care Services, including those that require referral and/or prior authorization.

3.9.2 Provider Network Documentation and Assurances

3.9.14 LTSS Providers

- 3.9.14.1 The Contractor shall offer provider participation agreements to all nursing facilities enrolled with DMAP that are Medicare/Medicaid certified nursing facilities, and such participation agreements must include at least the same service array as the State Medicaid FFS contracts with Medicare/Medicaid certified nursing facilities.

While family planning is a benefit for DHCP members, this “freedom of choice” option does not apply to DHCP members.

3.9.16 Pediatric Specialists

The State encourages the Contractor to have higher PCP levels (i.e., lower PCP: member ratios). The Contractor shall require each PCP to provide the Contractor with quarterly reports regarding current caseload, including non-DSHP/DSHP Plus patients.
- 3.9.17.1.1.2 The number of members assigned to a PCP shall be decreased by the Contractor if necessary to maintain the appointment availability standards or to avoid the PCP from having a caseload or medical practice composed predominately of DSHP/DSHP Plus members.

3.9.17.2 Distance Requirements

- 3.9.17.2.1 Except as otherwise specified for PCPs, the Contractor shall contract with sufficient providers to enable members to receive Covered Services from a qualified provider within 30 miles of the member's residence if the member is located in an Urban area, or 60 miles of the member's residence if the member is located in a Rural area.

 - 3.9.17.3.7.1.1 Emergency Services are available 24 hours a day, seven days a week.
 - 3.9.17.3.7.1.2 PCP appointments that meet the definition of an "emergency condition" are available the same day.

Examples of emergency conditions are: high temperature, persistent vomiting or diarrhea or symptoms which are of sudden or severe onset but which do not require emergency room services.

3.9.17.3.7.1.3 PCP appointments for Urgent Care are available within two calendar days. Examples of Urgent Care include: persistent rash, recurring high-grade temperature, non-specific pain or fever.

3.9.17.4 Office Waiting Times

3.9.17.4.1 The Contractor shall ensure that providers do not make members with appointments wait longer than one hour. Office visits can be delayed when a provider “works in” urgent cases, when a serious problem is found, or when a patient had an unknown need that requires more services or education than was described at the time the appointment was made. If a physician or other provider is delayed, patients must be notified as soon as possible so they understand the delay. If the delay will result in a more than a 90 minute wait, then the patient must be offered a new appointment.

Contractor shall immediately provide written notice to members living in the affected area of a provider shortage in the Contractor's network.

- 3.9.18.1.4 For Rural areas and areas where there are no providers within the specified travel time, the Contractor may submit a written request to the State for an exemption from the applicable access standard. The request must specify the provider type, the applicable access standard and the reason for the request and must include written documentation of the Contractor's inability to meet the access standard. The State may grant an exemption, in writing, and establish case-by-case requirements as a condition of granting the exemption. The State will not grant an exemption when the only reason for the request is that an available provider will not sign a participation agreement with the Contractor.

3.9.18.2 Network Change Notification to Members

3.9.18.2.1 *PCP Termination*

- 3.9.18.2.1.1 If a PCP ceases participation in the Contractor's MCO, the Contractor shall provide written notice as soon as possible, but no less than 30 calendar days prior to the effective date of the termination and no more than 15 calendar days after receipt or issuance of the termination notice, to each member who has chosen or been assigned to that provider as his/her PCP. The requirement to provide notice 30 calendar days prior to the effective date of termination shall be waived in instances where a provider becomes physically unable to care for members due to illness, a provider's death, the provider failing to provide 30 calendar days advance notice to the Contractor, the provider moving from the service area and failing to notify the Contractor or a provider failing credentialing, and instead shall be made immediately upon the Contractor becoming aware of the circumstances.

3.9.18.2.2 *Termination of Non-PCP Providers Providing Ongoing Treatment Termination, including LTSS Providers*

- 3.21.19.1 The Contractor shall submit a *Monthly Enrollment/Capitation Payment Reconciliation Report* that serves as a record that the Contractor has reconciled member eligibility data with Capitation Payments for each rate cell, and verified that the Contractor has an Enrollment record for all members for whom the Contractor has received a Capitation Payment. The report shall include an item for each discrepancy in the event that it has members for whom a Capitation Payment has not been made or an incorrect payment has been made. This report shall be submitted with a one-month lag time and is due to the State by the end of the second month following the reporting period. These reports shall include all un-reconciled items until such time that the State notifies the Contractor otherwise; no item may be removed without State approval.

SECTION 4 PAYMENTS TO THE CONTRACTOR

4.1 GENERAL

- 4.1.1 The obligation of the State to make payments to the Contractor shall be limited to monthly capitation rates, maternity care payments and any other payment explicitly provided for in this Contract. The Contractor shall accept these payments from the State as payment in full of the State's obligation to the Contractor.
- 4.1.2 The State will pay the Contractor for each covered member based on a set of capitated rates that includes all benefit package services, including the DSHP benefit package and the DSHP Plus LTSS benefit package (see Section 3.4 of this Contract). The State will make Capitation Payments to the Contractor on a monthly basis via electronic funds transfer (EFT).
- 4.1.3 The State will make payments based on capitation rates that are actuarially sound as defined by 42 CFR 4.38.6(c). Rates will be developed in accordance with generally accepted actuarial principles and practices. Rates will be certified as meeting the foregoing requirements by actuaries who meet the qualification standards established by the American Academy of Actuaries and follow the practice standards established by the Actuarial Standards Board.
- 4.1.4 The State will make a separate Capitation Payment to the Contractor for the month in which a member (i.e., pregnant female) delivery takes place. This payment, called a maternity care payment, represents all allowable service costs three months prior to delivery and all the delivery costs related to the pregnant female/mother only. A regular Capitation Payment will initially be made for the month of delivery, which will be replaced by the maternity care payment after the delivery of a live newborn becomes known to DMMA. In the case of the delivery of multiple newborns (e.g., twins, triplets) from a single pregnancy, the State will make a single maternity care payment. If the services covered or the maternity care payment mechanism changes, the Contractor will be notified regarding this change and will be provided with updated rates that are consistent with the change. The Contractor shall provide the State any requested information that may be required by the State to support the correct payment of the maternity care payment. The Contractor will be eligible for a maternity care payment based on submission of required data needed by DMMA to confirm the birth event and identification of the newborn, which can be provided up to 12 months from the date of birth.
- 4.1.5 Capitation rates will reflect an amount that is net of applicable TPL/COB, copayments or other cost/expenditure offsets. Capitation rates paid by the State to the Contractor for DSHP Plus LTSS members will also be net of the member-specific Patient Liability amount as determined by the State.

- 4.1.6 The Contractor is at risk of incurring losses if its expenses for, and related to, providing the benefit package exceed its Capitation Payment. The State shall not provide a retroactive payment adjustment to the Contractor to reflect the cost of services actually furnished by the Contractor. The State makes no guarantee that Capitation Payments will exceed the Contractor's expenses for medical costs and administration.
- 4.1.7 Any incentive-based payment(s) or other risk-sharing payment(s) will conform with Federal requirements applicable to such payments and will be remitted by the State to the Contractor based on the specified terms and conditions for the respective payment. The methodology for determining payments to Contractor for an incentive-based or other risk-sharing payment will be provided to the Contractor.
- 4.1.8 By executing this Contract, the Contractor affirms that it has reviewed the rates provided by the State and accepts the rates for the relevant contract period as actuarially sound as defined in 42 CFR 438.6(c).
- 4.1.9 As applicable, the State will make direct payments to providers for disproportionate share hospital (DSH) or graduate medical education (GME). DSH or GME amounts will not be included in payments made by the State to the Contractor.
- 4.1.10 Any and all discrepancies in Capitation Payments shall be communicated to the State in the Monthly Enrollment/Capitation Payment Reconciliation Report described in Section 3.21.19 of this Contract.

4.2 RISK ADJUSTMENT PROCESS FOR DSHP RATES

- 4.2.1 The Contractor's base capitation rates are based on the health status and utilization of the entire managed care population within each rate tier and not only on the portion of the population that is Enrolled in the Contractor's MCO. In order to attempt to mitigate adverse client/member selection between the MCOs, the State intends to risk adjust the Contractor's base rates in two six month intervals. The July 1 through December 31 period would be referred to as CYb. The January 1 through June 30 period would be referred to as CYa. The State intends to use the CDPS+Rx model developed by the University of California at San Diego to measure the relative health risk of each MCO's membership on a budget neutral basis. However, the State may choose another risk adjustment model if it determines that another model will more appropriately serve the State's interests. Rate tiers specific to children under age 1 and maternity care payments will not be risk adjusted. The methodology used to produce the budget neutral risk scores and ultimately the risk adjusted rates will be shared with the Contractor for every semi-annual process.
- 4.2.2 In the event that the risk adjustment process for CYb is not completed in time that the newly developed factors can be applied to the original payment of the

July capitation, the State shall continue to pay the risk adjusted rates in effect for June until such time as the CYb risk adjusted rates become available. The CYb rates shall be paid prospectively and shall be also be applied retroactively to any Capitation Payments for the applicable CYb period originally paid at the prior year contract rates. The same process will be followed for the CYa risk adjustment period. If a retroactive adjustment due to late receipt of risk adjusted capitation rates results in funds being owed by the Contractor to the State, the full amount of the funds owed will be withheld by the State from the next monthly Capitation Payment due to the Contractor. Notwithstanding any provision of the Contract to the contrary, the Contractor hereby agrees to accept the resulting final risk adjusted rates including any retroactive adjustments without further Contract negotiations or Contract amendments.

4.3 RISK ADJUSTMENT PROCESS FOR DSHP PLUS RATES

- 4.3.1 DSHP Plus members will not be subject to risk adjustment using the CDPS+Rx model. The Contractor's base capitation rates for DSHP Plus members that are in the nursing facility/HCBS rate tiers may be periodically subject to risk adjustment that takes into consideration population mix (e.g., percentage of nursing facility members) and/or acuity levels as determined by the State. Any risk adjustment applied to these rate tiers will be computed to be budget neutral to the State and the Contractor shall accept the resulting final risk-adjusted rates, including any retroactive adjustments, without further Contract negotiations or adjustments. The State's methodology for adjusting the DSHP Plus rates will be shared with the Contractor. In the event that the risk adjustment process relevant to the DSHP Plus rate tiers is not completed in time that the newly developed adjustment factors can be applied to the original Capitation Payment, the State shall continue to pay the rates in effect and agreed to prior to the risk adjustment.

4.4 RELATIONSHIP OF ELIGIBILITY AND ENROLLMENT DATES TO CONTRACTOR PAYMENT

- 4.4.1 The State shall make a full monthly payment to the Contractor for the month in which the member's Enrollment in the Contractor's MCO is terminated. The Contractor shall be responsible for Covered Services provided to the member in any month for which the State paid the Contractor for the member's care under the terms of this Contract.
- 4.4.2 The State shall have the discretion to recoup payments made by the State for payments found to be in error by withholding the amount of money due from the next Capitation Payment or successive Capitation Payments to the Contractor, or to request direct repayment from the Contractor, at the State's discretion.
- 4.4.3 The State acknowledges and agrees that, in the event of any recoupment pursuant to this Section of the Contract, the Contractor shall have the right to

recoup from providers or other persons to whom Contractor has made payment during this period of time.

4.4.4 The Contractor shall be responsible for payments for Covered Services rendered starting on the effective date of Enrollment, including a retroactive date of Enrollment, until the date the member is Transferred or Disenrolled.

4.4.5 Except as provided below or in Section 3.2.4 of this Contract, the effective date of a member's Enrollment shall not be retroactive.

4.4.5.1.1 The effective date of Enrollment for newborns shall be retroactive to the date of birth.

4.4.5.1.2 The effective date of Enrollment for DSHP Plus LTSS members residing in a nursing facility may be retroactive up to 90 calendar days prior to the member's date of application for Medicaid.

4.4.6 Administrative processing times may result in Contractor Capitation Payments being made retroactive to the date of Enrollment.

4.5 COMPENSATION AND PROGRAMMATIC CHANGES

4.5.1 Amendments, revisions, or additions to the Medicaid State Plan or to State or Federal law or policies shall, insofar as they affect the scope or nature of benefits available to clients, amend the Contractor's obligations as specified herein, unless the State notifies the Contractor otherwise. The State will inform the Contractor of any amendments to the Medicaid State Plan or changes in DMMA's regulations, guidelines, or policies in a timely manner.

4.5.2 If the scope of members or services, inclusive of limitations on those services, that are the responsibility of the Contractor is changed, the State will determine whether the change is sufficient that an actuarial analysis might conclude that a rate change is appropriate. If so, the State will arrange for the actuarial analysis, and the State will determine whether a rate change is appropriate. The State will take into account the actuarial analysis, and the State will consider input from the Contractor, when making this determination. At a minimum, the State will adjust the rates as necessary to maintain actuarial soundness of the rates. If the State makes a change, the State will provide the Contractor information on the impact of the rate adjustment.

4.6 CAPITATION RATES

4.6.1 The Contractor's capitation rates are provided in Appendix 2.

4.7 VALUE-BASED PURCHASING PROGRAM

4.7.1 Overview

- 4.7.1.1 The State's year one value-based purchasing (VBP) incentives program is designed to motivate the Contractor to implement innovative approaches to the care of its DSHP members with diabetes that achieve efficiencies and improve clinical outcomes.
- 4.7.1.2 In year one, the State will award performance incentives on the basis of the Contractor's performance in the three measures detailed below in Section 4.7.4
- 4.7.1.3 The State will disperse earned incentive payments under this program according to the timelines outlined in Section 4.7.7.1 below.

4.7.2 Program Establishment and Eligibility

- 4.7.2.1 The State has established a VBP program under which the Contractor will receive incentive payments upon attainment of certain performance thresholds as outlined in the following subsections.
- 4.7.2.2 Eligibility for an incentive payment shall be contingent upon the Contractor's complete and timely satisfaction of its obligations under the VBP program and obtaining the minimum 50% threshold of performance in all three measures specified in Section 4.7.4 below.

4.7.3 Funding the Performance Based Incentive Program

- 4.7.3.1 The State will create a bonus pool of dollars to be used to make incentive payments for year one. The Contractor may be eligible to receive a portion or all of the Contractor's potential incentive payment based on the Contractor's performance in the three measures outlined in Section 4.7.4 below. The State will calculate incentive payments as set forth in Section 4.7.6 below.

4.7.4 Performance Measures and Incentive Payment Structure – Year One

- 4.7.4.1 The State has identified diabetic care and management as the focus for the incentive payments for year one. To promote improved clinical outcomes for members with diabetes, the State has developed three measures against which the Contractor's performance and resulting incentive payments will be calculated. The State will monitor the Contractor's performance for each measure during the performance year and evaluate year end performance to determine the Contractor's eligibility for incentive payments. Measures are based on National Certified Diabetes Educator Accreditation standards and State-defined measure specifications.

4.7.4.2 The three measures for year one are:

- 4.7.4.2.1 Certified Diabetes Educator(s) (CDE): During year one, incentive payments will be based on the number of CDEs the Contractor has established in primary care provider (PCP) offices by December 31, 2015.
- 4.7.4.2.2 Home Health Annual Examination: During year one, incentive payments will be based on the percentage of the eligible population that received an annual exam by a home health provider that included an HbA1c and LDL-C test by December 31, 2015.
- 4.7.4.2.3 Nutritional Consultation: During contract year one, incentive payments will be based on the percentage of the eligible population that received at least one in-home nutritional consultation by December 31, 2015.

4.7.5 Performance Measures and Targets

- 4.7.5.1 Performance measures for the VBP program and thresholds are based on the priority areas selected by the State.
- 4.7.5.2 The performance measures, targets, and incentive methodology applicable during subsequent years of the VBP shall be established annually by the State and reflected in an amendment to the Contract.

4.7.6 Incentive Payments

- 4.7.6.1 The State has established a potential bonus pool of dollars for the Contractor. The Contractor must meet the 50% bonus threshold in all three measures to be eligible for the 75% or 100% incentive level payments for any measure. If the Contractor fails to meet the 50% performance level in any of the three measures, the Contractor is not eligible to receive payments beyond the 50% incentive level and would only receive incentive payments at the 50% level for the measures for which the Contractor met the 50% performance level. The following incentives are payable to the Contractor based on the amount assigned to each measure.
- 4.7.6.2 The total amount the Contractor can earn varies for each of the three measures:
 - 4.7.6.2.1 For the CDE measure the State has assigned a flat incentive payment of between \$125,000 and a maximum of \$250,000 based upon the Contractor's performance in the measure as described in Section 4.7.6.3 below.

4.7.6.2.2 For the remaining two measures, the Contractor can earn the remaining portion of their incentive dollars with each measure weighted as follows:

4.7.6.2.2.1 Home Health Annual Examinations – The Contractor can earn up to 67% of the remaining bonus pool dollars based upon performance in the measure as described in Section 4.7.6.4 below.

4.7.6.2.2.2 Nutritional Consultations – The Contractor can earn up to 33% of the remaining bonus pool dollars based upon performance in the measure as described in Section 4.7.6.5 below.

4.7.6.3 Certified Diabetes Educator (CDE)

4.7.6.3.1 Measure: The number of CDEs (1, 2, 3) in separate PCP offices.

4.7.6.3.2 Potential Incentive Payments

4.7.6.3.2.1 A flat incentive payment will be made based on the number of CDEs the Contractor has established in PCP offices per the following structure:

4.7.6.3.2.1.1 \$125,000 if one provider based staff person newly certified as a diabetes educator in one high volume PCP office (as defined in the specifications) that does not currently have a CDE.

4.7.6.3.2.1.2 \$187,000 if two staff persons newly certified as diabetes educators in two different high volume PCP offices (as defined in the specifications) that do not currently have a CDE.

4.7.6.3.2.1.3 \$250,000 if three staff persons newly certified as diabetes educators in three different high volume PCP offices (as defined in the specifications) that do not currently have a CDE.

4.7.6.4 Home Health Annual Examinations

4.7.6.4.1 Measure: The percentage of the eligible population that received an annual exam by a home health provider that included an HbA1c and an LDL-C test.

4.7.6.4.2 Potential Incentive Payments

- 4.7.6.4.2.1 The maximum incentive payment for this measure is 67% of the balance of the potential bonus pool of dollars after the flat rate of dollars for CDE is removed from the total potential bonus pool.
- 4.7.6.4.2.2 Fifty percent of the balance of the potential bonus pool shall be awarded if at least 25% of the eligible population received an annual exam by a home health provider that included an HbA1c and an LDL-C test.
- 4.7.6.4.2.3 Seventy-five percent of the balance of the potential bonus pool shall be awarded if at least 50% of the eligible population received an annual exam by a home health provider that included an HbA1c and an LDL-C test.
- 4.7.6.4.2.4 One hundred percent of the balance of the potential bonus pool shall be awarded if at least 75% of the eligible population received an annual exam by a home health provider that included an HbA1c and an LDL-C test.

4.7.6.5 Nutritional Consultations

- 4.7.6.5.1 Measure: The percentage of the eligible population that received at least one in-home nutritional consultation during the year.

4.7.6.5.2 Potential Incentive Payments

- 4.7.6.5.2.1 This measure is eligible for 33% of the balance of the potential bonus pool of dollars after the flat rate of dollars for CDE is removed from the total potential bonus pool.
- 4.7.6.5.2.2 Fifty percent of the balance of the potential bonus pool shall be awarded if at least 25% of the eligible population received at least one in-home nutritional consultation during the year.
- 4.7.6.5.2.3 Seventy-five percent of the balance of the potential bonus pool shall be awarded if at least 50% of the eligible population received at least one in-home nutritional consultation during the year.
- 4.7.6.5.2.4 One hundred percent of the balance of the potential bonus pool shall be awarded if at least 75% of the eligible population received at least one in-home nutritional consultation during the year.

4.7.7 Incentive Payments and Timing

4.7.7.1 Timing of Incentive Payments

- 4.7.7.1.1 The State shall evaluate the Contractor's performance and the amount of incentive payments earned within six months following the baseline year (i.e., the performance period January 1 – December 31, 2015). Performance results and incentive payments will be made to the Contractor within six months of the completion of the baseline year (i.e., by June 30, 2016).

4.7.7.2 Undistributed Incentive Payment Funds

- 4.7.7.2.1 In the event the Contractor is not eligible to receive or has not met the performance threshold to receive the maximum incentive payments, the State shall retain the difference ("Undistributed Incentive Payment Funds"). The Contractor acknowledges that it does not have any right to Undistributed Incentive Payment Funds.

5.7 CONTRACT AMENDMENTS AND MODIFICATIONS

5.7.1 General

- 5.7.1.1 An approved Contract amendment is required whenever a change affects the general requirements, scope of work, payments to the Contractor, the terms and conditions or the term of the Contract. Formal Contract amendments will be negotiated by the State with the Contractor whenever necessary to effect changes to the general requirements, scope of work, payment to the MCO, terms and conditions, or the term of the Contract. The State's decision as to the requirement for change in the scope of the Medicaid program shall be final and binding.

In such event, the State may reduce the scope of work for any task, sub-tasks or portions thereof by written notice to the Contractor.
- 5.7.4.2 Upon receipt of such notification, the Contractor will submit to the Program Manager within five business days an itemization of the work already completed (by task, or sub-task) and the work which will be required (by task or sub-task) to complete the affected tasks or sub-tasks in accordance with said notification. - 5.7.5.2 The Contractor (unless the Contract is terminated) shall resume work upon the date specified in the stop work order or upon such other date as the Program Manager may thereafter specify in writing. The period during which work shall have been stopped shall be deemed added to any applicable approved schedule of contract performance. Stoppage of work under this Section of the Contract shall not, however, be construed as extending the term of the Contract, and shall not give rise to any claim against the State.
- 5.7.5.3 All prices negotiated during the RFP process for this Contract must remain firm during the entire term of the Contract, including any extensions, notwithstanding the level of effort dictated by the State or the level of available funding.
